IEFT Talks Webinars Best Way To Reach Students Online

We believe IEFT Talks Webinars are an excellent way to enhance your exposure. With the online live webinars you can reach the potential students and let them know your program details, application requirements and many more during 45 minutes. Your sessions are advertised through Google, social media channels, SMS and emailing to IEFT's unique database. You will also receive around 100-500 student's data with the registrations. It will be also posted on our Youtube channel so it will reach hundreds of people all over Turkey who couldn't be able to attend and missed the session.

Easy to Use

No technical data necessary, no need to download any programs or applications. The platform we use is extremely simple; all you need is a computer with a webcam & a microphone, and a stable internet connection. With a few clicks, you are ready to meet your prospective students in no time!

Flexible

IEFT Talks Webinars consist of a series of webinars that are confined to 60 minutes per session. You can book as many sessions as you prefer. Can't make it to the scheduled session? No problem, we can reschedule anytime with no extra charge if you let us know a week in advance.

Short & Sweet

Each webinar session lasts up to 60 minutes. There is no specific format to follow. You can start with a simple presentation to introduce your institution and services, and then move on to answer questions of participating students and parents. You can decide how much time you would like to spend on the presentation part and on the Q&A part. If this does not sound creative enough, you can come up with your own format as long as you pay attention to the time limit.

Cost Effective

If you are looking for the value of your money, IEFT Talks Webinars is the right tool for you to curb the costs while maximizing your marketing efforts. With only a small amount of budget, you can book several slots of IEFT Talks Webinars and start connecting with highly motivated potential students right away!

Strong Marketing

For such an extensive project, we focus on our marketing efforts to make sure each webinar attracts around 50 to 200 students. Our marketing efforts include Google Ads, Facebook & Instagram Ads, E-mailing and SMS campaigns to our student database, and personal invitations to embassies & consulates, and school representatives and agents from around the world. We also design and send you social media banners that you can share on your institutions's official social media channels to promote the event as well.
